

# Mirasvit Comments Manual

## Welcome to the Comments Extension Guide!

Here you will find everything you need to set up and use Comments.

This extension, once enabled, automatically integrates with the **Mirasvit Advanced Reviews** and **Mirasvit Blog MX** extensions.

## General Configurations

All configurations of the **Comments** extension are located at **Stores -> Configuration -> Mirasvit Extensions -> Comments**.

The extension has only one configurations section - **General Settings** - with the following configurations:

- **Enable Comments** - enable/disable the comments feature.
- **Allow Guests to Write Comments** - defines whether guest users are allowed to leave comments or not.
- **Automatically Approve Comments** - defines whether comments left by visitors should automatically obtain the **Approved** status or should be left for moderation.
- **Date Format** - defines how the date when the comment was left should be displayed.
- **Enable Admin Notifications** - if enabled, the extension will add notifications about pending comments into the admin system notifications.

## General Configurations

All configurations of the **Comments** extension are located at **Stores -> Configuration -> Mirasvit Extensions -> Comments**.

The extension has only one configurations section - **General Settings** - with the following configurations:

- **Enable Comments** - enable/disable the comments feature.
- **Allow Guests to Write Comments** - defines whether guest users are allowed to leave comments or not.
- **Automatically Approve Comments** - defines whether comments left by visitors should automatically obtain the **Approved** status or should be left for moderation.
- **Date Format** - defines how the date when the comment was left should be displayed.
- **Enable Admin Notifications** - if enabled, the extension will add notifications about pending comments into the admin system notifications.
