

Landing Page Manual

Getting Started

Welcome to the **Landing Page Documentation**. Whether you are a new or an advanced user, you can find some useful information here.

First of all, we recommend you check the following link:

- [How to install extension](#)

How to install the extension

1. Backup your store's database and web directory.
2. Login to your server's SSH console and navigate to the root directory of the Magento 2 store.
3. Copy the installation instructions from the page [My Downloadable Products](#) into the SSH console and press ENTER.
4. Run the command below to enable the extension:

```
php -f bin/magento module:enable Mirasvit_LandingPage
```

5. Run the command below to install the extension:

```
php -f bin/magento setup:upgrade
```

6. Run the command below to clean the cache:

```
php -f bin/magento cache:clean
```

7. Deploy static view files:

```
rm -rf pub/static/frontend/*; rm -rf pub/static/backend/*; rm -rf var/
php -f bin/magento setup:static-content:deploy
```

Manage Landing Pages

This section describes how to create and edit landing pages.

To create a new landing page, go to the **Content -> Landing Pages -> Pages** section and press the button **New Page**. The landing page that will appear is divided into four sections:

General Information

Option	Description
Is Active	Enable / disable landing.
Name	Internal name of the page
Store View	Defines where the landing page will be displayed.

[Back to Top](#)

Search Engine Optimization

Option	Description
URL key	Defines URL for your landing page.
Page Title	The Title (H1) of the Landing Page. If the field is empty, the title will display Name of Page.
Meta Title	Defines the meta title for the landing page.
Meta Keywords	Defines meta keywords for the landing page.
Meta Description	Defines the meta description for the landing page.
Robots	This directive controls page visibility by search engines' crawlers. There are four available variants: NOINDEX, NOFOLLOW, NOINDEX, FOLLOW, INDEX, NOFOLLOW, INDEX FOLLOW .

[Back to Top](#)

Content

This section allows configuring the content of the landing page .

Option	Description
Description	Defines Landing page's description.
Top CMS block	Defines a static block to display at the top of the landing page. Blocks should be added in Content -> Elements -> Blocks . Not applicable for the Products only display mode.
Bottom CMS block	Defines a static block to display at the bottom of the landing page. Blocks should be added in Content -> Elements -> Blocks . Not applicable for the Products only display mode.
Layout Update XML	Defines Layout Update XML for the landing page

[Back to Top](#)

Products

This section defines how products for the page will be selected

Option	Description
--------	-------------

Categories Defines the categories from which products will be displayed.

Search Term Defines the search term. If specified, only products that match the search term will be displayed

Filters Configure attributes and their values to use them as filters for selecting products

The extension supports any combinations of these configurations to filter products

[Back to Top](#)

Disabling the Extension

Temporarily Disable

To temporarily disable the extension please follow the following steps:

1. Login to your server's SSH console and navigate to the root directory of the Magento 2 store.
2. Run the command below to disable the extension:

```
php -f bin/magento module:disable Mirasvit_LandingPage
```

3. Log in to the Magento backend and refresh the store's cache (if enabled).

Removing the Extension

To uninstall the extension, please follow these steps:

1. Login to your server's SSH console and navigate to the root directory of the Magento 2 store.
2. Run the command below to remove the extension:

```
composer remove mirasvit/module-landing-page
```

3. Log in to the Magento backend to refresh the store cache (if enabled).
