

# Shipping Restrictions Manual

## Getting Started

Welcome to the **Shipping Restriction** documentation. Whether you are a new or an advanced user, you can find some useful information here.

First of all, we recommend to check the following link:

- [How to install extension](#)

Second of all, proceed then with [Quick Start](#), which will guide you through creating your own **Shipping Restriction**.

## How to install the extension

1. Backup your store's database and web directory.
2. Login to the SSH console of your server and navigate to the root directory of the Magento 2 store.
3. Copy the installation instructions from the page [My Downloadable Products](#) to the SSH console and press ENTER.
4. Run command `php -f bin/magento module:enable Mirasvit_Core Mirasvit_ShippingRestriction Mirasvit_ShippingArea` to enable the extensions.
5. Run command `php -f bin/magento setup:upgrade` to install the extension.
6. Run command `php -f bin/magento cache:clean` to clean the cache.
7. Deploy static view files

```
rm -rf pub/static/*; rm -rf var/view_preprocessed/*; php -f bin/magento setup:static-content:deploy
```

## Quick Start

The **Shipping Restriction for Magento 2** extension is designed to help you organized delivery methods.

For more information please visit this section [Shipping Restriction](#).

?

# Shipping Restrictions

Get a well-developed shipping policy set up in your store. Adapt delivery methods available in your store to your business and regulatory requirements. Provide customers with optimal delivery methods based on order and cart attributes, and shipping location.

## **Adding a shipping restriction rule**

In your the Magento admin panel sidebar, find the **Stores** button. Click on it and select **Shipping Restrictions**.

# Shipping Restrictions

2 records found

ID	Name
2	Shipping restriction Alaska
3	Shipping restriction for 1 item

Type a notification in the field **Restriction message** for the customers to be informed on the unavailability of the specified shipping methods. Leave the field blank to hide those shipping methods on a checkout page

without any notice.

### Setting restriction conditions

In the section **Applying Conditions**, you can configure restriction rules based on the cart attributes:

-

Subtotal

- Subtotal excluding tax
- Total items quantity
- Total order weight
- Payment method
- Shipping method
- Shipping postcode
- Shipping region
- Shipping state/province
- Shipping country

You can also create use a product attribute combination and product sub-selection as conditions for the rule.

# Edit Restriction "Restriction"

Delete

## Applying Conditions

Apply the restriction only if the following conditions are met:

If **ALL** of these conditions are **TRUE** :

Total Items Quantity is 1 ❌

Total Weight is 20 ❌

Payment Method is Google Pay ❌

Shipping State/Province is Niederösterreich ❌

Use extra conditions such as day of the week, time of the day, and Shipping Area.

**Example 1** To create a rule which is applied when there is 1 item in the cart and the customer makes an order on Wednesday, add the following conditions:

-

Total items quantity is 1

- Day of week is Wednesday

**Example 2** To restrict a shipping method for single porcelain item of 50 kilograms, make a new rule and specify the following conditions:

- Total Weight is 50
- Product attribute combination:
  - Material contains porcelain

### **Setting rule visibility**

Shipping restriction rules can be applied to store views and customer groups. You can check multiple store views and user groups.

## Shipping Area

Shipping Area is an extra condition you can apply to the shipping restriction rule. This option allows you to spend less time creating identical restriction conditions for deliveries to different locations. Group a number of geographical shipping zones as one.

In your Magento admin panel, find the **Stores** button in the Magento admin panel sidebar. Click on it and

select **Shipping Area**.

## Applying Conditions

Apply the rule only if the following con

If **ALL** of these conditions are **TRUE** :

Shipping State/Province is **Tasmania** ✖

Shipping State/Province is **Prince Edward Isl**

Set Applying Conditions for this area, for example the shipping postcode, region, country, etc.

You can use the created Shipping Area as an extra condition for shipping restriction rules.

# How to upgrade extension

To upgrade the extension follow these steps:

1. Backup your store's database and web directory.
2. Login to the SSH console of your server and navigate to the root directory of the Magento 2 store.
3. Run command `composer require mirasvit/module-shipping-restriction:* --update-with-dependencies` to update current extension with all dependencies.

## Note

In some cases the command above is not applicable, it's not possible to update just current module, or you just need to upgrade all Mirasvit modules in a bundle. In this case command above will have no effect.

Run instead `composer update mirasvit/*` command. It will update all Mirasvit modules, installed on your store.

4. Run command `php -f bin/magento setup:upgrade` to install updates.
5. Run command `php -f bin/magento cache:clean` to clean the cache.
6. Deploy static view files

```
rm -rf pub/static/*; rm -rf var/view_preprocessed/*; php -f bin/magento setup:static-content:deploy
```

# Disabling the Extension

## Temporarily Disable

To temporarily disable the extension please follow these steps:

1. Login to the SSH console of your server and navigate to the root directory of the Magento 2 store.
2. Run command `php -f bin/magento module:disable Mirasvit_ShippingRestriction Mirasvit_ShippingArea` to disable the extension.
3. Log in to the Magento backend and refresh the store cache (if enabled).

## Removing the Extension

To uninstall the extension, please follow these steps:

1. Login to the SSH console of your server and navigate to the root directory of the Magento 2 store.
2. Run the command `composer remove mirasvit/module-shipping-restriction` to remove the extension.
3. Log in to the Magento backend and refresh the store cache (if enabled).

# Change Log

## 1.0.2
